Proposed by: Jon Gresham, Lee & Associates

If there are any comments, objections or conflicts with the above proposal, please contact Membership Chairperson, David Sanchez at 447-9890.

---

### **CLASSIFICATION:**

Lawrence Ling of QES Computers was born and raised in Hong Kong. His education is in the

polytechnic and science fields. After graduating, he worked in the semiconductor industry in quality control.

After meeting his future wife, he moved to join her in the US in 1989 just after the "big quake". He got a job in a restaurant, working 6 days a week for \$750. Unable to support a family on that wage, he took his wife and child back to Hong Kong. He came back to the States for good in 1993 and was fortunate enough to find a job in his field, semiconductors and computers, and then began learning English.

In 1998 Lawrence started his business with a friend. Many of their customers were located in Pleasanton and decided that that was the place to open their store.

QES stands for Quality Efficient Service and their mission is to offer clients the highest quality products with the most efficient service possible while maintaining competitive prices.

They are now a company of 7 employees and are very busy serving their customers who are mostly small businesses.

QES Computers carries a very broad product line of not only computer products but televisions as well, and is a premium service provider, certified with HP, Microsoft, Cisco, Xerox, Samsung and Minolta. They have repair services for PCs and printers, do network setups, provide security for your PCs and are committed to customer satisfaction.

To have your computer system evaluated or if you know someone who is looking to upgrade his or her system, call Lawrence at 463-8100.
