
NOVEMBER 22, 2012

NEXT WEEK:

The **next meeting** of the Tri-Valley Executives' Association will be held on **November 29th** at Vic's All-Star Kitchen at 7:00am.

GREETERS will be an **Advisor** from Pleasanton Financial Advisors and **Jim Pease** of Pease Tax and Accounting Service.

Darlene Crane-Peel will give the SPOTLIGHT on **Larry Smario Landscape & Tree Service**.

The CLASSIFICATION will be given **Mark Van Slambrook** of The Swenson Group Business Technologies.

POT REPORT:

This week's TVEA 50/50 raffle is at **\$130 and 3 marbles:** 1 white (\$5), 1 blue (\$10) and 1 red (winner takes all).

SPOTLIGHT:

BY DAVE JONES

QES Computers is located on Hopyard Road in Pleasanton near 680. They have been in business for 15 years building and servicing computers and laptops. QES is also a distributor of big-screen TVs. They also configure high-end gaming systems, networks and workstations.

With three technicians, they provide on-site installation, service and repair as well as in-shop repairs. QES Computers also offers an online back-up service, which is essential for every business and end user.

For your next computer or service for your existing one, call Lawrence Ling at QES Computers 463-8100.

HAVE YOU GIVEN A REFERRAL THIS WEEK?

GIFT BAGS FOR THE HOLIDAY PARTY AT PASTAS:

I'd like to put together a gift bag for each member who attends the Holiday Party. If you have a promotional item or something else that you'd like included, please bring them (qty. 25) to the next meeting on 11/29.

The Annual TVEA Holiday Party has been scheduled for the first Thursday in December, **12/6** at 6:30pm at Pastas on Main Street in Pleasanton. Dinner will be \$35 per person due in advance. Please let Cristin know if you will attend. The sign-up sheet will be going around.

SPECIAL SECTION:

There have been great advances in dental technology, and Dr. Endre Selmeczy keeps up with all of it at his state-of-the-art dental office.

Precision technology can now create ceramic restorations and porcelain crowns all in a same-day appointment; only 8% of dental offices have this technology.

Only 2% of dentists offer 3D imaging. 3D imaging allows the dentist to correctly plan a procedure and know exactly where the sinus and nerves are. Without this technology, other dentists doing implants build the foundation first, without consideration to what needs to be built on top. With the 3D imaging, Dr. Selmeczy can plan the appropriate implant and then build the correct foundation to support it.

To refer someone to, or experience for yourself, the best the dental field has to offer, contact the dental office of Dr. Endre Selmeczy 447-8344 or visit www.livermoresedation.com.
